A SRI RAM

Pandalapaka, Andhra Pradesh, India | akesurekha@gmail.com | 9849326138 | Portfolio | LinkedIn | GitHub

Career Objective

Information Technology undergraduate with a strong interest in Java development, problem-solving, and full-stack web development. Familiar with Java, SQL, HTML, CSS, and JavaScript, with hands-on experience building projects and practicing Data Structures and Algorithms. Eager to apply technical skills and learn new technologies through challenging opportunities.

Technical Highlights

- Knowledge of Java, C, C++, Python, and JavaScript.
- Familiar with Data Structures and Algorithms (DSA) and problem-solving.
- Knowledge of web development using HTML and CSS.
- Familiar with SQL and MySQL database management.
- Interested in full-stack development using Spring Boot.
- Hands-on experience building projects and solving coding problems on LeetCode.

Education

Aditya College of Engineering and Technology, B.Tech in Information Technology — Present

- **Coursework:** Data Structures and Algorithms, Java Programming, Database Management Systems, Operating Systems, Computer Networks

Gamyam Junior College, Intermediate — Completed

Z P High School, Pandalapaka, SSC — Completed

Experience

Intern, APSSDC — Internship

- Gained practical exposure to software development and technical concepts.
- Applied programming knowledge while working on assigned tasks.
- Strengthened problem-solving and technical skills through hands-on learning.

Personal Software Development Projects — Projects

- Developed projects including Flappy Bird, Snake Game, and Calculator.
- Practiced programming, debugging, and logical problem-solving.
- Used GitHub to manage and maintain project source code.

Achievements

LeetCode Problem Solving — 2026

- Solved 300+ problems on LeetCode across Easy, Medium, and Hard difficulty levels.
- Practiced Data Structures and Algorithms, primarily using Java.
- Earned the 100 Days Badge 2026 on LeetCode.

LeetCode Profile

Projects

Flappy Bird Game — GitHub

Developed a game project to practice programming logic, event handling, and game mechanics.

GitHub Repository

Snake Game and Calculator — GitHub

Built mini-projects to strengthen programming fundamentals, logical thinking, and problem-solving skills.

GitHub Profile

Technical Skills

Programming Languages: Java, C, C++, Python, JavaScript, Dart

Web Technologies: HTML, CSS, Node.js, Express.js

Frameworks & Libraries: Spring Boot, JavaFX, Flutter

Database & Connectivity: MySQL, SQL, JDBC

Tools: Git, GitHub, VS Code, IntelliJ IDEA

Beyond the Classroom

- **Continuous Learning:** Earned certifications across web development, programming, and emerging technologies.
- **Hands-on Development:** Built personal projects to apply programming concepts and strengthen practical development skills.
- **Technical Exploration:** Explored technologies including React, Python, SQL, Docker, and Kubernetes through courses and training.
- **Problem Solving:** Practiced Data Structures and Algorithms through coding challenges on LeetCode.
