SUMMARY

Information Technology undergraduate at Aditya College of Engineering and Technology interested in Java development, full-stack web development, and problem-solving. Experienced in building personal projects and developing technical skills through certifications and coding practice.

EDUCATION

B.Tech in Information Technology Graduating Expected 2028
Aditya College of Engineering and Technology

Relevant coursework: Data Structures and Algorithms, Java Programming, Database Management Systems, Operating Systems, Computer Networks

Intermediate Graduating Completed
Gamyam Junior College

Relevant coursework: Mathematics, Physics, Chemistry, English

Secondary School Certificate (SSC) Graduating Completed
Z P High School, Pandalapaka

Relevant coursework: Mathematics, Physical Science, Biological Science, English

TECHNICAL SKILLS

Programming Languages: Java, C, C++, Python, JavaScript, Dart
Web Development: HTML, CSS, React, Node.js, Express.js
Frameworks and Technologies: Spring Boot, JDBC, JavaFX, Flutter
Database Management: SQL, MySQL
Developer Tools: Git, GitHub, VS Code, IntelliJ IDEA
Certifications: Cisco JavaScript Essentials 1 & 2, Introduction to Red Hat

PROFESSIONAL EXPERIENCE

APSSDC, Andhra Pradesh, India: Intern 15 May 2026 – 14 July 2026

- Gained practical exposure to software development concepts and technical workflows.
- Applied programming knowledge to technical tasks and strengthened problem-solving skills.

PROJECTS

Personal Portfolio Website 2026
Developed a portfolio showcasing technical skills, projects, certifications, and coding profiles.

Developer Command Center 2026
Built a developer-focused project to organize development workflows and tools.

Daily DSA Tracker 2026
Created a project to track daily Data Structures and Algorithms practice.

Flappy Bird 2026
Developed a game project to practice programming logic and game mechanics.

TECHNICAL INVOLVEMENT

Problem Solving
Practiced Data Structures and Algorithms using Java and solved 300+ problems on LeetCode.

Continuous Learning
Pursued certifications and technical training in web development, Python, SQL, and developer tools.
